Clubs

Augsburg Coding Club, Augsburg University, Minneapolis, MN

August 2024 – Current

Projects

Created a simple Machine Learning Model to Predict Future Global Mean Sea Levels

- Processed and cleaned large datasets, ensuring high data quality for accurate predictions and analysis.
- Implemented linear regression and time-series analysis to forecast sea level changes, considering climate factors.
- Developed a Machine Learning model to predict future global mean sea levels based on historical data using Python, NumPy, and Pandas.

Created a dynamic/Interactive Webpage for my Favorite Foods using HTML, CSS, JavaScript

- Built a dynamic, responsive webpage showcasing my top 5 favorite foods, incorporating images and detailed descriptions with JavaScript-driven interactivity.
- Created interactive features such as sorting, hover effects, and pop-up details to enhance user engagement and experience.
- Designed a clean, mobile-friendly layout using modern CSS techniques like Flexbox, ensuring cross-browser compatibility.

Skills

- Bilingual (English & Spanish)
- Python| Java| HTML| CSS| JavaScript
- Management
- Leadership
- Multitasking
